Organization (if applies):

Address:

City:

State: MN

Zip:

Contact Phone:

E-mail:

Specific Request Including Date & Time

Reason for Request:

Date Requested:

Time Requested:

to

Street Requested:

Side of Street (*one side only*):

Sign Coverage Required: Please cover the “no parking” signs with paper or plastic bags and “**promptly**” uncover them once your event is over. The Sheriff’s Department will be notified of your parking request.

Access for Emergency Vehicles: Due to the need to maintain access for emergency vehicles and for safety reasons, parking is only allowed on one side of the street. If your street already allows parking on one side, you *would not* be granted parking on the other side. (There are some streets within the city that are wide enough to allow parking on both sides. Please call Public Works Superintendent Bill Dircks at 651-766-4049 or e-mail him at bill.dircks@littlecanadamn.org if a special request is needed.)

Revocation due to Snow Emergency: This parking permit shall be revoked during a snow emergency. Snow emergency parking regulations automatically go into effect on city streets following a snowfall event of two inches or more. No parking is allowed until streets have been plowed to full width. Violators will be tagged and towed at the owner’s expense.

City Approval Required: This permit is not granted until approved and signed by a city official.
